If you want the best homes, you need the best architects. That's why our homes are designed in London by renowned Ben Pentreath Architects.

Why do we exist?

Established in 2019, Brooksfeld began property development with a simple goal - create beautiful homes that people love. We do not use 'cookie cutter' designs. Each one of our developments is tailored to the site, suburb, and surroundings. We build Classical and Georgian buildings and homes, as well as traditional cottages.

We have fine-tuned our builds and are constantly looking for ways that we can better our designs to include more beautiful architectural details, and increase the durability, and affordability of these homes.

What makes Brooksfeld homes different?

We believe that your home should bring a sense of pride every time you arrive home. We challenge ourselves to maximise space and inclusions in every home to suit contemporary lifestyles.

Inside every Brooksfeld home you'll find stone bench tops, tiled bathrooms, low-VOC paints and double glazed windows to name just a few of our premium features. It's all part of our commitment to creating beautiful and sustainable homes that exceed people's expectations without costing the earth.
