ABOUT US

Brooksfield

Established in 2019, Brooksfield began property development with a simple goal - create unique homes for people to love where they live. We do not use a 'cookie cutter' design as each one of our developments is tailored to the site, suburb, and surroundings. We build Classical and Georgian, buildings and homes, as well as cottages.

Over the past few years, we have fine-tuned our builds and are constantly looking for ways that we can better our designs to include the latest in design trends, durability, and affordability.

We're filling Christchurch with homes and buildings our grandkids can point at in 100 years and say "Grandad and his friend built these pretty buildings"

- Vincent Holloway, Brooksfield Director

THE BROOKSFIELD DIFFERENCE

We believe that your home should bring a sense of pride every time you arrive home. We challenge ourselves to maximise space and inclusions in every home to suit contemporary lifestyles. Inside every Brooksfield home, you'll find stone benchtops, tiled bathrooms, low-VOC paints and double glazed windows to name just a few of our premium features. It's all part of our commitment to creating beautiful and sustainable homes that exceed people's expectations without costing the earth.

SOLAR POWER

These homes feature our pre-installed system which will save you roughly 50% (+/-) on your power bill. The system we install in Brookfields homes includes an 'Enphase' individual inverter on each of the panels, meaning each panel works on its own without relying on the other panel's sun exposure or cleanliness. We also include a 'Green Catch Diverter' system which diverts excess power to the hot water cylinder before sending it back to the grid to sell, this is the most efficient way to use the power generated.

Green Catch Solar Diverter
5 Year Product Warranty

Jinko Solar Panels
25 Year Product Warranty

Enphase IQ7A Microinverter
10 Year Product Warranty

The solar power system installed in Brookfields homes features the latest in smart home technology. You are able to monitor and track the power produced and used as well as check to see how much power is being imported from and exported to the national grid. All you need is a wi-fi connection and the Enphase app.
