ABOUT US

Brooksfield

Established in 2019, Brooksfield began property development with a simple goal - create unique homes for people to love where they live. We do not use a 'cookie cutter' design as each one of our developments is tailored to the site, suburb and surroundings. We are on a mission to breathe new life into Christchurch suburbs from stunning modern designs to our unique heritage style townhouses.

Over the past few years we have fine tuned our builds and are constantly looking for ways that we can better our designs to include the latest in design trends, durability and affordability.

What people say:

These are simply perfect. Seeing your vision and Ben's signature detailing - so very impressive.

- M.B

Thank you for being the only developer in town building something sensitive to the surrounding areas and considering the long-term considerations like sustainability and solar.

- B.H.

THE BROOKSFIELD DIFFERENCE

We believe that your home should bring a sense of pride every time you arrive home. We challenge ourselves to maximise space and inclusions in every home to suit contemporary lifestyles. Inside every Brooksfield home you'll find stone benchtops, tiled bathrooms, low-VOC paints and double glazed windows to name just a few of our premium features. It's all part of our commitment to creating beautiful and sustainable homes that exceed people's expectations without costing the earth.

SOLAR POWER

These homes feature our pre installed system which will save you roughly 50% (+/-) on your power bill. The system we install in Brookfields homes includes an 'Enphase' individual inverter on each of the panels, meaning each panel works on its own without relying on the other panels sun exposure or cleanliness. We also include a 'Green Catch Diverter' system which diverts excess power to the hot water cylinder before sending it back to the grid to sell, this is the most efficient way to use the power generated.

Solar power system

Green Catch Solar Diverter
5 Year Product Warranty

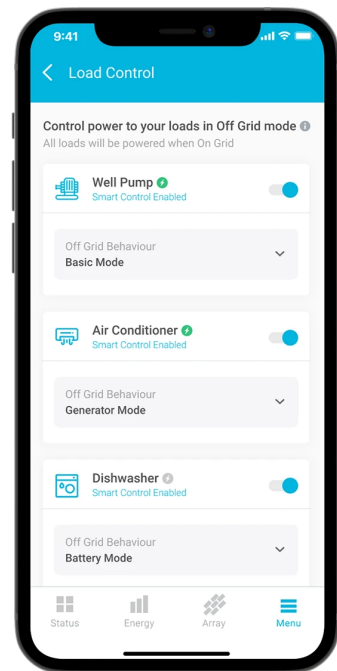

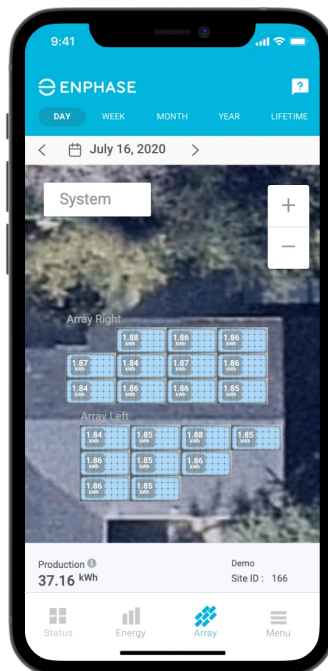

Jinko Solar Panels
25 Year Product Warranty

Enphase IQ7A Microinverter
10 Year Product Warranty

The solar power system installed in Brookfields homes features the latest in smart home technology. You are able to monitor and track the power produced and used as well as check to see how much power is being imported from and exported to the national grid. All you need is a wi-fi connection and the Enphase app.

Your Rental Appraisal

05 October 2022

ADDRESS: 353 Manchester Street

Thank you for the opportunity to provide a rental appraisal for the above property. We use the latest market insights, current available listings and recently rented statistics to provide you with a comprehensive appraisal.

Located within the four avenues and offering a walking commute to hospitals, the CBD and Hagley Park, while allowing you to leave your car in the car park provided.

After reviewing the provided information, I believe a fair market rent would be between **\$650 - \$700 per-week** for an unfurnished, long-term rental.

Please do not hesitate to contact me if you have any questions regarding this rental appraisal.

Kind regards,

Ngairi Baker
